

21.5.68

58

Proposed by Gray Morris

"I propose that this meeting demand of the relevant bodies that:

1. Part 1 and Progress exams be abolished, and a system of assessment or assessment plus a number of papers to be written by the end of term, replace them.

2. That the question of final degree exams be decided by those concerned with them, as they are a minority, and should not necessarily be dictated to by this meeting.

I further propose that a meeting of all those involved this year in the 3rd Year final exams be convened as soon as possible so that they may discuss the future of their exams".
