Statement Regarding 7th May, 1968.

On 7th May, at approximately 4.30 p.m., walking from the Valley buildings towards Wivenhoe House, I was walking behind fifteen to twenty students, several of whom were picking up stones from the Park. The only students I could identify were one who wore a yellow plastic cap and has a heavy black beard, and another whom I find difficult to describe.

On reaching the Mansion the students entered Wivenhoe House through the kitchen door, after crossing the flower bed.
